

Date:

Dear Sir/Madam

Re: Termination Notice of Contract to Supply Gas

In accordance with my clients contractual Terms and Conditions, I hereby give the required notice to terminate the Gas Supply Contract relating to the below MPRN Number(s). You are deemed to have accepted this upon receiving this notice and Delivery and Read Receipts will be kept for our records.

Included with this notice is a valid Letter of Authority (LOA) permitting us the right to give notice on our clients behalf. We have now agreed a supply contract via our client with an alternative supplier and regret to inform you an application will be made to transfer the supply in line with current contract end date(s).

All correspondence is to be directed through KWH Consulting Ltd. Our client is not to be contacted directly without written permission of KWH Consulting Ltd and any attempt to 'win back' or re-price the customer will result in complaints being raised with the Energy Ombudsman and Ofgem.

Since our client has signed an alternative fixed price contractual agreement such 'win back' or re-price actions could result in termination charges and our administration costs being applied to our customer. Any such resulting costs will be sought directly from yourselves, including any loss of potential commission for KWH Consulting Ltd and/or hourly charges for work by KWH Consulting Ltd relating to these issues (charged at £250 per hour).

Company Name and Address:

Supply MPRN Number(s):

I would be grateful if you could formally acknowledge any objections to the acceptance of this Termination Notice. All such objections should be directed to KWH Consulting Ltd only.

Yours Faithfully,

N. FOX.

KWH Consulting Ltd
